AUTHOR INDEX

*Starred items are "Shorter Notes"

*Akcoglu, M. A. and del Junco, A. *Convergence of averages of point transformations*, 265.

Al-Kutaibi, S. H. and Rhodes, F. *Lifting recursion properties through group homomorphisms*, 487.

Allen, Paul J. and Neggers, Joseph. *A characterization of Steinitz group rings*, 39.

Arnold, Jimmy T. *The dimension of the ring of coefficients in a polynomial ring*, 32.

Beem, John K. *Pseudo-Riemannian manifolds with totally geodesic bisectors*, 212.

Benzinger, Harold E. *A biorthogonal expansion related to the zeros of an entire function*, 135.

Blanksby, P. E. *Sums of powers of conjugates of algebraic numbers*, 28.

Blei, Ron C. *A tensor approach to interpolation phenomena in discrete abelian groups*, 175.

Brandstein, Alfred G. *On the nonexistence of unimodular functions in* $R^2(X, dx, dy)$, 339.

Brown, Jack B. *Almost continuity of the Cesàro-Vietoris function*, 185.

Brunel, A., Fong, H. and Sucheston, L. *An ergodic super-property of Banach spaces defined by a class of matrices*, 373.

Burnham, James T. *The relative completion of an A-Segal algebra is closed*, 117.

Calvert, Bruce. *Cones of potentials*, 325.

Cheatham, T. and Cumbie, R. *Test modules*, 311.

Chewning, William C. and Owen, R. Steven. *Local sections of flows on manifolds*, 71.

Chicra, Pran Nath. *Regular functions* $f(z)$ *for which* $zf'(z)$ *is* α*-spiral-like*, 151.

Chui, Charles K. and Smith, Philip W. *Unique best nonlinear approximation in Hilbert spaces*, 66.

Cohen, Fred and Lusk, Ewing L. *Coincidence point results for spaces with free* Z_p*-actions*, 245.

Cook, R. J. *Point partition numbers and girth*, 510.

*Csordas, George and Williamson, Jack. *The zeros of Jensen polynomials are simple*, 263.

Cumbie, R. See Cheatham, T.

*Daughtry, John. *An invariant subspace theorem*, 267.

Dwyer, William G. *Vanishing homology over nilpotent groups*, 8.

Edgar, G. A. *A noncompact Choquet theorem*, 354.

Ernst, Lawrence R. *Measure of Cartesian product sets*, 199.

Fadell, A. G. *A note on a theorem of Gehring and Lehto*, 195.

Fathi, A. and Visetti, Y. M. *A reduction of the fundamental conjecture about locally compact ANR's*, 446.

Fields, K. L. *Inequalities concerning the characters of a finite group*, 289.

*Fleissner, William G. *Lemma on measurable cardinals*, 517.

Fong, H. See Brunel, A.

Foran, James. *An extension of the Denjoy integral*, 359.

Foregger, Thomas H. *An upper bound for the permanent of a fully indecomposable matrix*, 319.

Förster, K.-H. and Kaashoek, M. A. *The asymptotic behaviour of the reduced minimum modulus of a Fredholm operator*, 123.

Gallian, Joseph A. *The Hughes conjecture and groups with absolutely regular subgroups or ECF-subgroups*, 315.

*Garner, Lynn E. *A real place on the real number field is trivial*, 519.
